who we are

HopeNet 360 is a non-profit organization that exists to listen to the cries of hurting teenagers and young adults that too often go unnoticed. More than ever before, this generation is hopeless and lost. Many turn to a razor blade, alcohol, sex, or a bottle of pills to deal with the pain they are experiencing. HopeNet 360 provides a way for them to deal with their pain in a healthy way through conversations, resources, & connections.

We believe in the power of parent's influence on their teens, which is why we are also committed to coming alongside parents to help them understand the situations that teens are facing. We offer a number of seminars, resources, and tips to help encourage parents to reconnect with their teens.

what we do

INTERNET CRISIS CHAT LINE -

The conversation begins here

Our website hosts a safe, confidential internet crisis chatline (powered by Groundwire) where young people can chat confidentially about deep issues with caring, trained adults 7 days a week, 18 hours a day.

AWARENESS -

Taking the conversation into our communities

Through positive local events, partnerships, and resources, a "network of hope" is established for both parents and teens.

EDUCATION -

Helping parents understand the conversation

HopeNet 360 hosts seminars and events for parents and adults to help them understand the depth of the pain their teens are facing.

Thank you for changing my life. Not just from helping me with my cutting, but from wanting to kill myself. Last night I did what you said. I put down the pills and lifted my hands. Thanks for helping me do a total 360.

– age 15, Green Bay

God used some people at HopeNet 360 to keep me from doing the unthinkable last night. They kept me alive, basically. Without them, I know I wouldn't be here right now.
